Testimonials

“Christine finally got me to sit down and talk about what I was looking for and would make me happy. Within little more than a week, I had an accepted offer, and closed less than four weeks later. I know I got lucky finding a home so quickly, but Christine was there for me every step of the way, advising me on offer terms, how to understand and what to look for in the disclosures, and how to deal with financing, not to mention the mountain of unfamiliar paperwork.

She was available at any hour of the day, and got back to me lightning-quick regarding any questions or concerns I had. And beyond that, she gave me spot-on personal advice that helped me figure out exactly what I wanted to do.”

“Buying a home is already super stressful... However, working with Christine made the entire process go way more smoothly than I thought it could ever be. If I had any questions or concerns she was quick to respond and give me all the information I needed to make a decision (or trust her judgement to make the right call for me). This was my first home-buying experience and couldn't imagine having worked with anyone else. From being patient while I spent months looking at places and deciding if I wanted to go through with it, all the way through closing, working with Christine was fantastic.”
